AISTRONAUTS · SUMMIT SPRINT HACKATHON

Amtsweg

Your portable official clerk — every Austrian public service, done in one conversation.

THE PROBLEM

Dealing with the authorities still feels like a full-time job.

Where do I even start?

Which office, which form, which deadline — spread across many portals.

Same data, again

Name, birth date, address, passport — typed by hand on every single form.

Language barrier

Official German is hard — for newcomers, students and many locals too.

Queues & appointments

Waiting for slots, travelling to offices, missing opening hours.

THE SOLUTION

A personal clerk in your pocket that cuts away the bureaucracy.

Amtsweg is the AI companion for every person living in Austria — from 16 to 80+. Tell it what you need; it finds the service, fills the forms, sends them and books your appointments.

HOW IT WORKS

From one sentence to a submitted application.

1

Say it

Type or speak in your language: "Renew my student visa."

2

Prefilled

Your data from ID Austria is reused to fill the right form.

3

Review

Check the details, add what is missing, attach documents.

4

Confirm

Sign with ID Austria biometrics — e.g. face recognition.

5

Done

Submitted, reference number issued, appointment booked.

TWO MODES

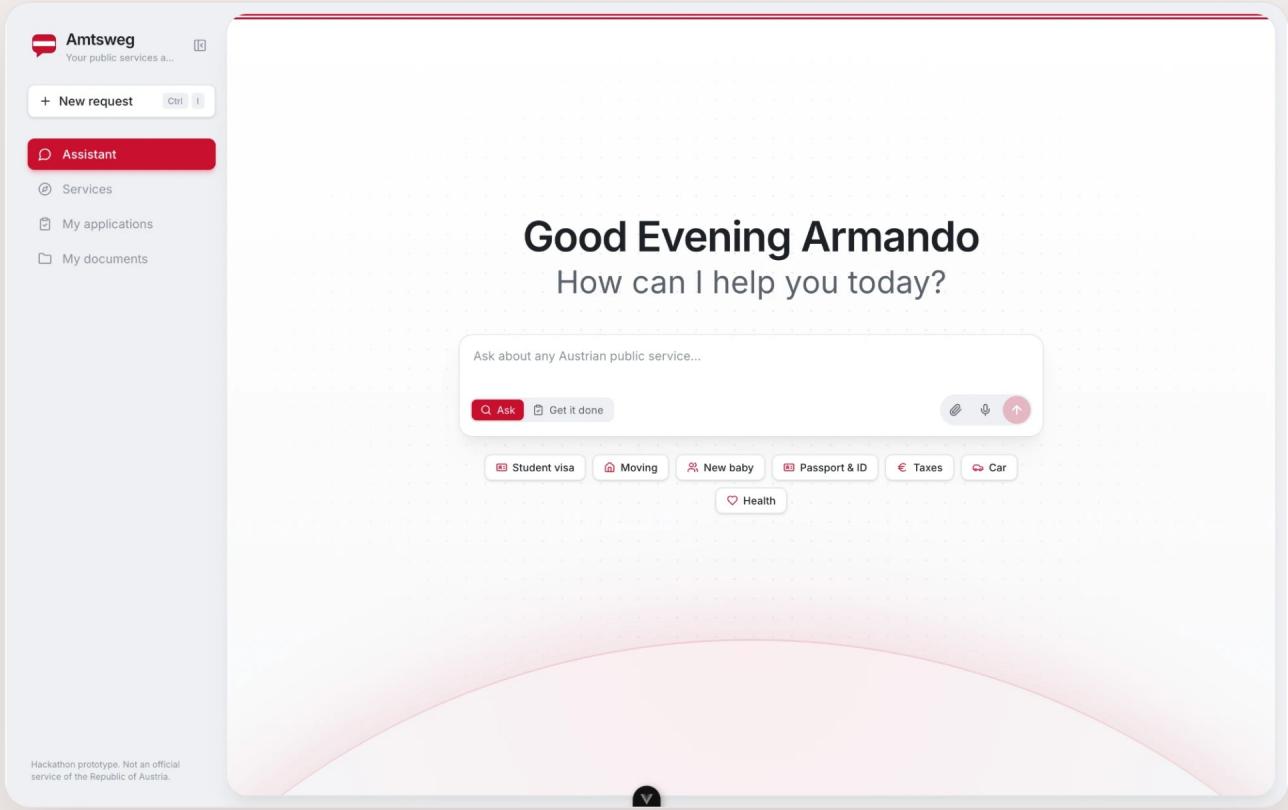

Ask a question, or let it do the work.

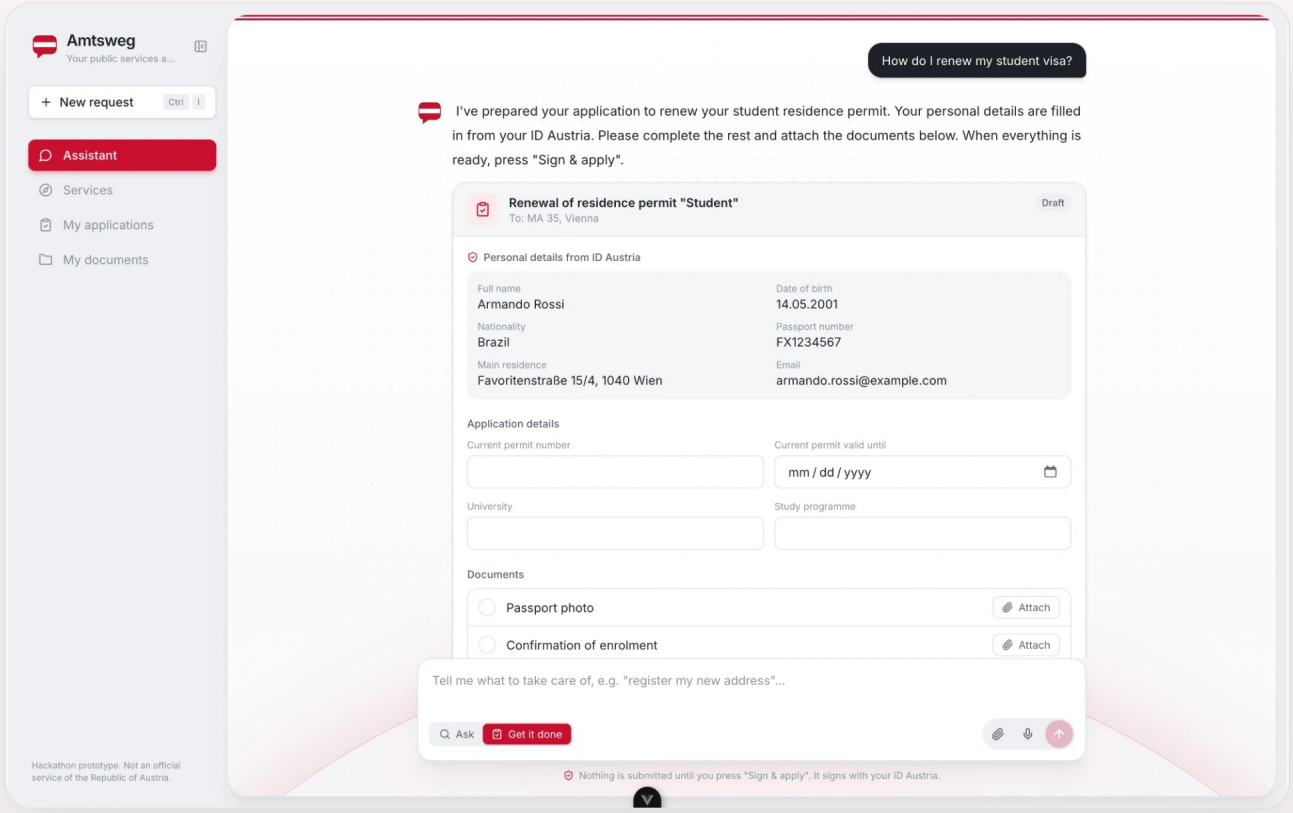

Ask — get answers

Plain-language guidance on any Austrian public service.

Get it done — do it for me

Fills the forms, sends them and books the appointments.

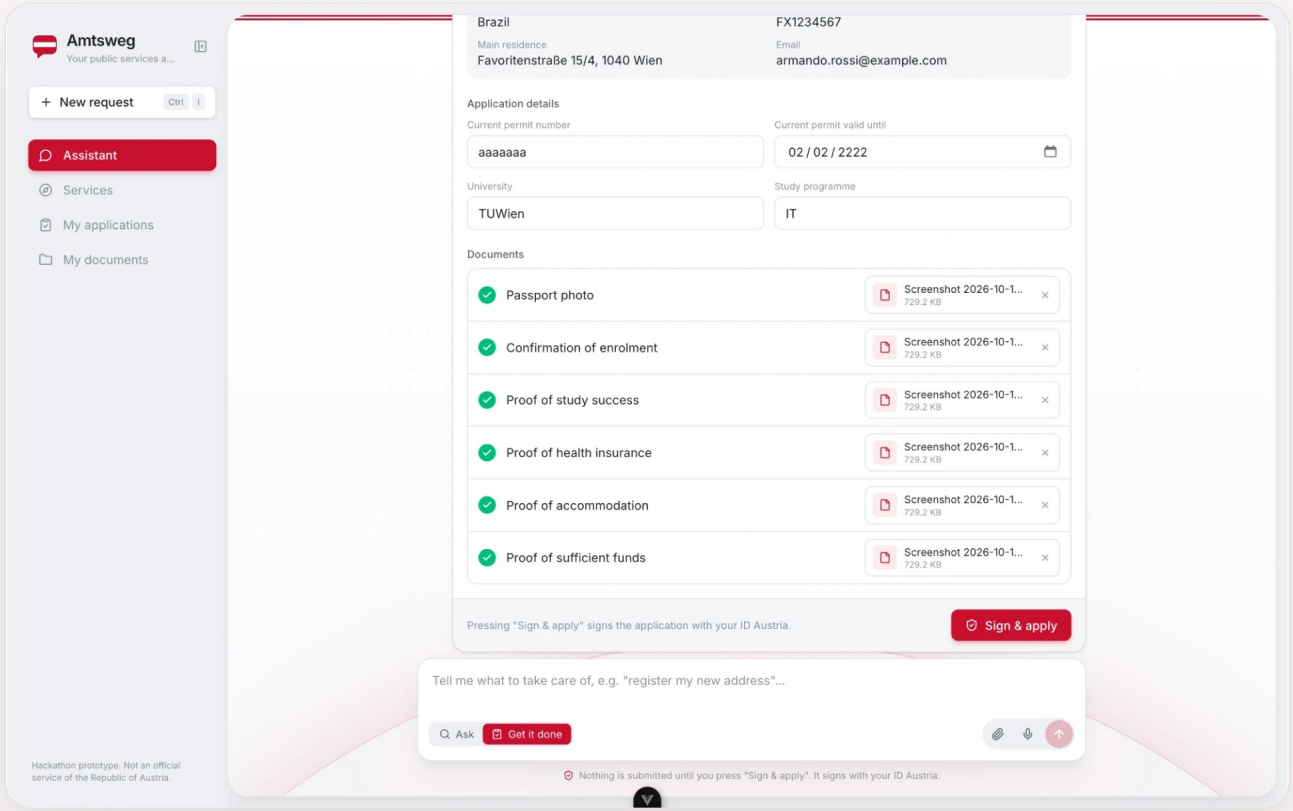

DEMO · STEP 1

"How do I renew my student visa?"

Amtsweg picks the right service — renewal of the residence permit "Student" at MA 35 — and prefills name, birth date, nationality, passport and address from **ID Austria**.

You only add what the state doesn't already know.

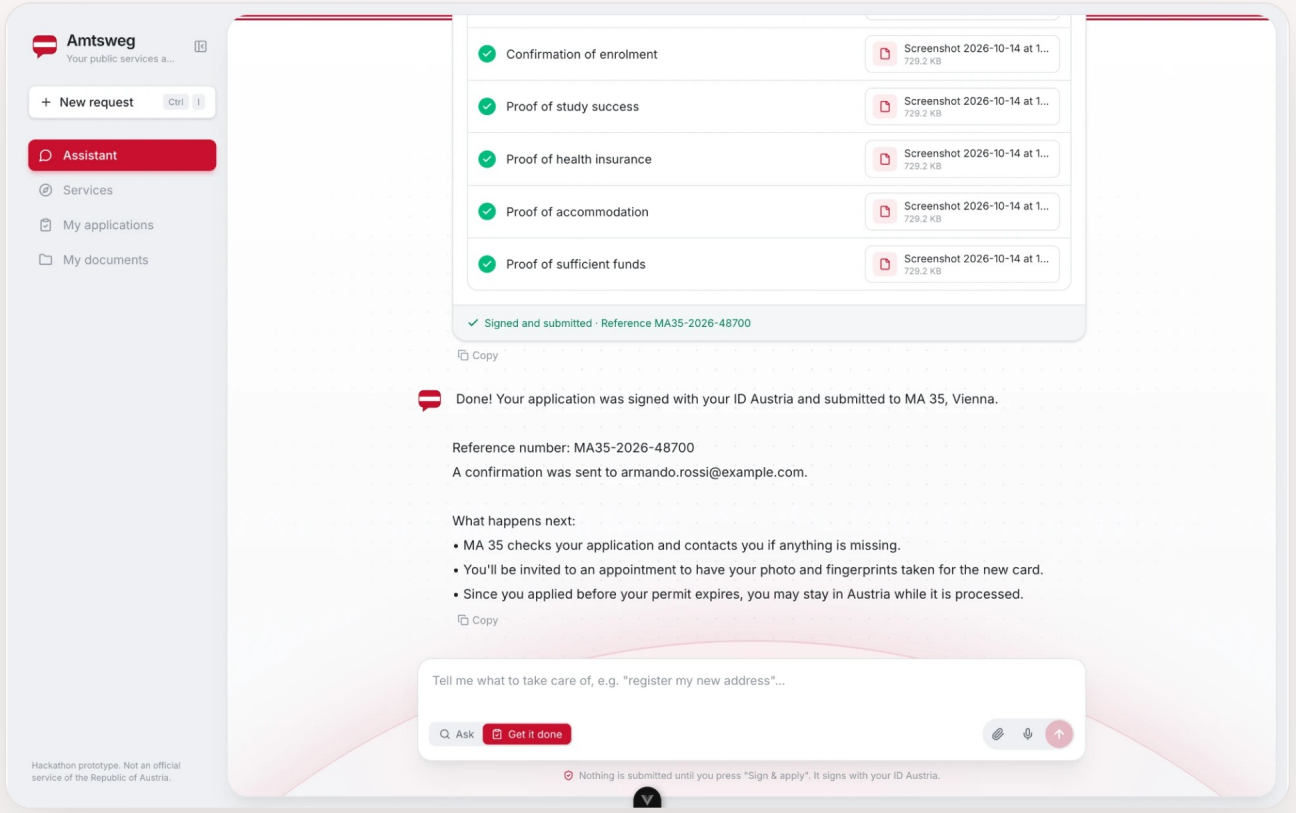

DEMO · STEP 2

A checklist instead of a paper chase.

Every required document is listed and ticked off as you attach it — from passport photo to proof of funds.

Then one button: **Sign & apply**, confirmed with your ID Austria biometrics.

DEMO · STEP 3

Submitted. And you know what comes next.

A reference number, an e-mail confirmation and plain-language next steps — including the biometrics appointment it books for you.

Tracked under **My applications**.

TRUST BY DESIGN

Nothing is sent until you confirm it's really you.

Built on ID Austria

Identity and personal data come from the official digital ID — verified, not typed.

Biometric final check

Every submission and every appointment is confirmed with ID Austria biometrics, such as face recognition.

You stay in control

The AI prepares; you review and decide. Every step is visible before it is sent.

FOR EVERYONE

Built for every resident, from 16 to 80+.

Your language

Talk to it in your own language; official forms are still filed correctly in German.

Just speak

Speech-to-text means no typing needed — ideal for seniors and on the go.

Do it for me

One tap fills, sends and books appointments — no portals, no queues.

A COMPANION FOR LIFE

One clerk for every life event.

First ID
Turning 16 · ID card, passport

Studies
Student visa, residence permit

Moving
Register your new address

Car
Licence, registration

New baby
Birth certificate, family benefits

Taxes
Annual tax return

Health
Insurance, doctor appointments

Retirement
Pension application and more

Say what you need. Amtsweg does the rest.

Your portable official clerk — powered by ID Austria, confirmed by you.
